How will we be warned?

WE WON'T get a **WARNING** for an earthquake or a landslide.

WE MIGHT get some **WARNING** of flooding, pandemic, forest or scrub fire, volcanic ash, or tsunami.

FOR A TSUNAMI generated far away from New Zealand, we could get as much as 14 hours warning.

We will get a FLOOD WARNING from either Civil Defence, the Emergency Response Team, or a member of the community.

WE WILL GET WARNINGS FROM A NUMBER OF SOURCES

These will come from the radio, TV, sirens, text messages, email, social media, or phone call.

Te Whakaputa i Te Kōrero

Getting the word out

At the back of this plan is a list of people and their contact details who are responsible for contacting five people each – by phone or in person – to make sure information and warnings are received by the entire whānau and hapū.

Registering

If whānau, hapū or people from the wider community come to our marae in an emergency, we will record their name, address and contact phone number and provide them to our local Civil Defence team. These details can be used to track family members who are presumed missing, ensure the safety of whānau and wider members of the community. If these people decide to leave the marae, we will note where they intend to go to and mark them as not being on the marae anymore.

Tō Tātau Marae

Our marae

Our marae works because we have the resources and services that support it. We also know what extra resources we will need in an emergency and how to get them.
