

IF AN EARTHQUAKE IS **LONG** OR **STRONG** **GET GONE**

MOVE IMMEDIATELY TO THE NEAREST
HIGH GROUND OR AS FAR INLAND AS POSSIBLE.
DON'T WAIT FOR AN OFFICIAL TSUNAMI WARNING.

All of New Zealand's coastline is at risk of tsunami. Knowing the right immediate action to take can prevent injury and save lives. If you are near the coast and feel an earthquake that lasts more than a minute or makes it hard to stand up, move quickly.

Make a plan today. Know where to go, and find out who can help you and who might need your help. Your local Civil Defence Emergency Management Group has tsunami zone maps and local information. Visit www.civildefence.govt.nz to find out more.
